Our Premium and Mid-range models feature improved cutting and collection performance, from the lawn up.

The Premium and Mid-range models feature a wider, refined grass chute shape, creating a smoother airflow to improve collection and distribution of clippings into the bag. A revised grass-full indicator also allows more grass to be collected before emptying.

New cutting blade and anti-scalp deck designs incorporate twin fans and air intake to pull more air through, for optimised cutting and collection performance.

Cataphoresis treatment protects against rust for great performance for years to come.

A new fluted mesh grass bag on the Premium and Mid-range models allows greater airflow for improved collection performance, as well as reducing operational noise and dust.

The thing we love about gardens is that, however beautiful, they are constantly growing and evolving. It's a process we follow at Honda too. Our latest Premium and Mid-range Lawn Tractors use innovative technology to ensure the best results every time.

When it comes to collecting grass cuttings, airflow is critical. A completely revised cutter assembly features a new blade and deck that incorporates twin

fans to draw more air in, and at the back, a smoother, wider rear chute and fluted mesh grass bag to allow more air to flow through. The result is that more clippings are blasted into the grass bag than ever before. No clogging. No walking around after yourself. No fuss.

Quite simply, nothing helps you shape your dream garden quite like a new Honda Lawn Tractor.

Dash-mounted push-button blade engagement and one-touch grass-dumping on our Premium and Mid-range models allows you to get the job done smoothly and effortlessly.

Intuitive forward and reverse pedal controls allow you to manoeuvre around the tightest spaces with complete control.

Safety and good looks as standard. Honda belt covers keep all the moving parts protected.

Easy-clean deck comes with a hose nozzle attachment – simply connect the hose and engage the blades with the engine running to clean inside the cutter deck.

Premium and Mid-range models feature a unique air intake and twin fan assembly within the cutter deck to improve airflow for superb collection performance.

Premium

Our largest and most comfortable Lawn Tractors offer the very best in cutting technology. With improved collection performance and unique dashboard-operated grass-dumping system, you'll be admiring the perfect lawn in no time.

HF 2620 HTE 48" (121cm)
 HF 2417 HTE 40" (101cm)

Electric emptying

One-touch dash-mounted electric grass-dump system for effortless unloading of the vast grass bag.

Superb cutting and collection

Up to 48" twin-rotor cutter deck with anti-scalp wheels and improved fan-assisted clipping collection covers large areas fast and efficiently.

Power and control

Smooth and efficient 530cc or 614cc Honda V-twin engine with hydrostatic drive gives you the best cut at any speed.

If you're trying to keep a large lawn looking its very best, you'll appreciate the extra cutting width, effortless comfort and superior performance of the HTE range. Our V-twin engines deliver the highest standards of smooth power and reliability, combined with premium features including an audible 'bag full' indicator and electric grass-dump system. Smooth push-button blade engagement and hydrostatic drive help you cut large areas of lawn at your own pace with perfect results.

Ergonomically designed controls offer new levels of safety and comfort with intuitive foot pedals, a high-back adjustable seat, easy-access rear fuel filler and a full diagnostic LED dash. Both models also feature anti-scalp wheels allowing the cutter deck to 'float' over undulations and protecting the lawn from over-cutting.

Lawn care has never been so easy.

HF 2620 HTE	Elec grass-dump	Elec grass-dump
	Fan-assist cutter	Fan-assist cutter
	Anti-scalp deck	Anti-scalp deck

	614cc OHV V-twin	530cc OHC V-twin
	350 litre bag	330 litre bag
	48"/121cm cut	40"/101cm cut

Optional mulching kit and rear tow hitch available.

Key features

One-touch electric grass dump system

Mesh fluted grassbag and revised rear chute design for improved airflow and collection performance

Full LED diagnostic dashboard with push-button blade engagement

Easy-clean, anti-scalp cutter deck with air intake and twin fans to draw air in for superb performance

Front and rear bumpers

Hydrostatic drive with forward/reverse pedals

High-back seat with lever adjust

Automatically activated headlights

V-twin engine for smooth and efficient power

Rear fuel filler for easy access - fill up like a car

Sealed, safe and simple electrical components with easy access to the battery

Ergonomic controls just where you expect them

Premium-range

Mid-range

The HME range with hydrostatic drive puts you in control of great cutting performance and easy to operate features.

HF 2417 HME 40" (101cm)
 HF 2315 HME 36" (91cm)

Built to last

Honda quality design and engineering with a durable, rigid chassis with front and rear bumpers. An anti-corrosion cataphoresis treatment on the cutter deck also minimises rust for years of trouble-free work.

Rider comfort

Smooth riding, intuitive controls with adjustable seat, automatic headlights and easy-to-fill rear fuel tank.

Perfect results

Variable speed hydrostatic drive for a perfect cut at your own pace.

model shown HF 2417 HME

model shown HF 2315 HME

The HME models offer great performance and easy starting every time. Hydrostatic drive ensures smooth operation and a quality cut at any speed, as the blade speed is independent of forward drive speed. These enhanced models both have an LED diagnostic dashboard featuring automatically operated headlights, a Honda exclusive

electromagnetic blade engagement control and a safety feature that only allows you to cut in reverse by depressing a button on the dash. Extra comfort comes from an adjustable high-back seat, intuitive pedal and cutter controls, and an easy to empty, large capacity grass collector that lets you know when it's full.

Key features

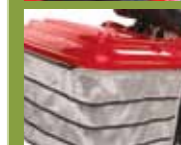

Full LED diagnostic dashboard

Hydrostatic drive with forward/reverse pedals

Mesh airflow grassbag and revised blade design for improved collection performance

Front and rear bumpers

Anti-scalp cutter deck with hose cleaning nozzle and anti-rust treatment

High-back seat with lever adjust

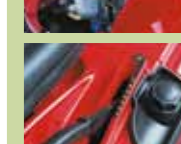

Automatically activated headlights

V-twin engine for smooth and efficient power

Rear fuel filler for easy access - fill up like a car

Sealed, safe and simple electrical components with easy access to the battery

Ergonomic controls just where you expect them

	300 litre bag		280 litre bag
	40"/101cm cut		36"/91cm cut

Optional mulching kit for HF 2417 HME and mulching plug for HF 2315 HME are available. Rear tow hitch available for both models.

Mid-range

Standard

Great value with unrivalled Honda performance and engineering for reliable, fast and efficient lawncare.

HF 2315 SBE 36" (91cm)

Versatile lawncare

A multi-function cutter deck collects grass, leaves or pine needles, with the option of mulching to keep your lawn in great condition.

Why not add a tow hitch to transform it into a garden workhorse?

V-twin efficiency

Our V-twin engine delivers easy-starting power with low emissions, low fuel consumption and minimal vibration.

Built to last

Legendary Honda design and engineering with a durable rigid chassis, sealed electrical components and an easy-clean cutter deck with anti-rust treatment.

A step up from our smaller Ride-on comes our Lawn Tractor range. Solid performance and design make this machine ideal for covering larger areas of lawn without fuss. The efficient 530cc OHC V-twin engine with key start ignition provides smooth vibration-free power with 5 speed settings and reverse gear. The ergonomically designed controls and rear fuel filler cap are positioned just where you need them too.

Its multi-purpose 36" cutting deck can collect both grass cuttings or leaves – all easily emptied onto the compost heap from the driver's seat with the integrated telescopic handle. And like the higher spec models, the cutter deck also features a hose wash nozzle – simply attach a hose with a snap-on connector, and engage the blades with the engine running to clean it.

Let a Honda Lawn Tractor do the hard work.

Key features

Easy-empty, easy-clean large capacity grass bag

V-twin engine for smooth and efficient power

Cutter deck with hose cleaning nozzle and anti-rust treatment

Rear fuel filler for easy access – fill up like a car

Sealed, safe and simple electrical components with easy access to the battery

Ergonomic controls just where you expect them

Trailer hitch

This optional attachment allows you to tow a trailer – great for transporting heavy or bulky items such as garden waste, tools or shrubs around the garden.

Mulching plug

This optional attachment is simply fitted into the rear chute, allowing the blades to finely shred grass cuttings instead of collecting. These fine particles help to stop the ground drying out and act as a valuable fertiliser.

- 5fwd/1rev gears
- Key start
- Electric BBC
- 530cc OHC V-twin
- 280 litre bag
- 36"/91cm cut

Optional mulching plug and rear tow hitch available.

Ride-on

Compact, agile and simple to operate. With a choice of hydrostatic or manual transmission, let your Honda do the hard work.

HF 1211 S 28" (71cm)
HF 1211 H 28" (71cm)

Mulching plug

This optional attachment is simply fitted into the rear chute, allowing the blades to finely shred grass cuttings instead of collecting. These fine particles help to stop the ground drying out and act as a valuable fertiliser.

Great handling

A tight turning circle, compact design and unrestricted rider vision for easy mowing around the tightest of spaces.

Easy to ride

Simple controls and the option of gearless hydrostatic drive make light work of larger lawns.

Quiet and efficient

Reliable and efficient 337cc Honda 4-stroke engine with key start.

Why not upgrade your pedestrian lawnmower to our small Ride-on? With a 28" cut, generous 170 litre grass bag and the sheer ease and enjoyment that comes from using a Ride-on mower, you can put the smile back into looking after your lawn. These compact and agile models are ideal for medium-sized gardens, or those with trees, flowing borders or tighter curves where the tight turning circle and great all-round visibility make short work of the task in hand.

The HF 1211 H also offers the gardener extra convenience and control with an infinitely variable hydrostatic drive, allowing you to cut the lawn at your own pace.

Look after your lawn the smart way with a Honda Ride-on.

You deserve complete confidence that you've made the right choice, long after you've made the purchase. That's why we appoint our Honda Authorised Dealers with as much care as we build into our products.

Look for the seal of quality when you buy your Honda, or call **0845 200 8000** and we'll find the closest to you.

£ Sales

Our Authorised Dealers not only feature a comprehensive display of Honda products to see and touch, but they know our product range inside-out. Every one follows an extensive Honda training programme with regular refresher courses – so you can trust in their valuable advice and experience to help you choose the product that's just right for you and your garden.

🔧 Service

As well as offering the highest levels of after-sales service, our Authorised Dealers' factory-trained technicians perform a full Pre-Delivery Inspection (PDI) on every machine, and are fully equipped to keep your product in peak condition with cost-effective servicing. Of course, you can also be assured that only high quality, genuine Honda parts are used, with access to our 24hr parts delivery service for fast and efficient turnaround.

★ Expertise

Our Authorised Dealers are true experts in their field, often with years of first-hand experience under their belt. In fact, their knowledge and experience plays an important role in making sure that our Research and Development team is given feedback from our customers, so we can ensure that new and improved models continue to meet your future needs too.

Unrivalled quality for peace of mind.

There's a simple reason why you'll see so many old Honda products still in use. **Ours are built better to last longer.**

That's not just an idle promise. It's fact. And it's supported by the longest and most comprehensive guarantees you'll find anywhere.

All of our Lawn Tractors and Ride-on mowers come with a comprehensive 5 Year manufacturer's Warranty*

for domestic use, covering both parts and labour, so you can be assured of peace of mind. Our warranty maintains the same value throughout its lifetime too, meaning the last day of the cover is exactly the same as day one: solid and dependable.

With Honda, reliability comes as standard.
